

Request for Clarification Q/A Project No. 558-14-303

Upgrade Energy Management Controls

1. The Solicitation states that bids should be sent/dropped off at Room 207 in Building 3 and that the bid opening will take place in Room F3199 of Building 1. With Engineering's recent move to Building 6, is this information still correct? **The Bid Opening will be in Room 1114 Building 6 Engineering Durham VAMC. The Bids should be sent/dropped off at Room 113 in Building 6.**

2. The response to Question #5 that was issued with Amendment 2 states to "Remove all work associated with Bid Alternate Item 8 from the contract in its entirety." Bid Item IX is the bid item that deletes the ECC work. **Delete all work associated with integrating the new ECC to the existing control system.**

3. Was there a second page to the sign in sheet that was not posted? I believe there were more people present that I do not see on the sign in sheet that was posted on FBO? **There was only one sign in sheet that was used.**

4. During the walkthrough, it was mentioned by one of the VA employees that the bid opening time may be extended to the afternoon to allow for overnight shipping to arrive. It will be difficult for bids to be mailed in by a Monday 9:00AM deadline. Will the bid opening be moved to 2:00PM? **The Bid Opening will be changed to 2:00 p.m. February 23, 2015 and will be held in Room 1114 Building 6 Engineering.**
